3. w3school – HTML table

The screenshot shows the w3school HTML table tutorial. On the left, the HTML code is displayed, and on the right, the rendered table is shown. The table has three columns with headers 'Header 1', 'Header 2', and 'Header 3'. The body of the table consists of three rows, each with a different background color (light green, light blue, and light red).

5. w3school – HTML tampilan SSO Undip

The screenshot shows a web browser displaying a simulated SSO (Single Sign-On) interface for Universitas Diponegoro. The interface includes a header with the university name, a welcome message, and a profile section for a user named Alfina Eka Wardani. The profile section shows the user's email, faculty, and department. The main content area displays information about the UNDIP network access, including a link to the UNDIP Connect portal and a button to configure the network. The interface is designed to look like a real SSO system.
